Claims 8-17 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b) as being for a nonelected invention (or species). Election was made without traverse in Paper No. 4.

Claims 1-7 and 18 are rejected under 35 U.S.C. 103 as being unpatentable over Durckheimer et al. Although, the invention is not identically disclosed or described as set forth in section 102 of Title 35 U.S.C., the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Compounds as claimed appear within generic disclosure of reference with methoxymethyl substituent suggested at column 7, line 63.
